

Wall-mounted heat recovery unit EER

Description

Telescopic plastic wall kit for ventilation with heat recovery function.

Technical data

Construction	Made from plastic. Contains: ① axial fan, ② air flow straightener, ③ two filters class, ④ ceramic heat regenerator, ⑤ adjustable telescopic duct, ⑥ grille.
Installation	Through - wall mounting, horizontal, with 1-2° slope down to outdoor, screw fixing.
Colors	White.

Technical specifications

Technical information	EER100	
Speed	I	II
Voltage (V)		230
Phase (Hz)		50
Power (W)	1,5	2
Suction power (m ³ /h)	30	45
Noise level: 3m distance, L _{pA} dB(A)	27	32
Protection against environmental factor	IPX4	
Rotations per minute	2060	2450
Ambient temperature	-30C ... +50°C	
Filter class	EU1	
Recuperation efficiency	≤ 85%	
Energy efficiency class	A	
Weight (kg)	1,54	

Modifications

EERxxS – with a wall switch

EERxxWP – with a cable and a switch
